INDEX TO VOLUME 31

NOTE

1 Names of authors and discussors and headings of groups of similar subjects are in CAPS and SMALL CAPS.
2 The straight title of each paper is in *Italics*. The cross index of a title is in CAPS and lower case.
3 The Society is not responsible as a body for the statements of fact or opinion in its papers and discussions.

ALLEN, C. M. *Tests on a Venturi Meter for Boiler Feed*. 589
Automatic Feeders for Handling Material in Bulk, C. KEMBLE BALDWIN. . . 161
Under-Gate Feeder; Lifting-Gate Feeder; Screw-Conveyor Feeder; Roll Feeder; Rotary-Paddle Feeder; Revolving-Plate Feeder; Apron-Conveyor Feeder; Swinging-Plate Feeder; Plunger Feeder; Reciprocating-Plate Feeder; Shaking Feeder.
Discussion
T. A. BENNETT, 169; Closure. 170

BALDWIN, C. KEMBLE. *Automatic Feeders for Handling Material in Bulk* 161
BARTH, CARL G. *The Transmission of Power by Leather Belting*. 29
Beams, Stresses in Reinforced Concrete, G. LANZA and L. S. SMITH. . . . 511
Belt Conveyor, A Unique, E. C. SOPER. 151
Belting, The Transmission of Power by Leather, CARL G. BARTH. 29
Best Form of Longitudinal Joint for Boilers, The, F. W. DEAN. 823
Early Forms of Joints; Defects of the One-Sided Butt Joint; New Form of Butt Joint.
Discussion
R. P. BOLTON, 826; E. D. MEIER, 826; A. M. GREENE, Jr., 827; W. A. JONES, 827; S. F. JETER, 829; Closure. 830
BIBBINS, J. R. *Cooling Towers for Steam and Gas Power Plants*. 725
Bituminous Gas Producers. 877
Bituminous Gas Producers, J. R. BIBBINS. 877
Essential Requirements; Description of Power Plant; Schedule of Tests; Discussion of Results; Operating Results; General Conclusions.
Discussion
G. M. S. TAIT, 894; R. H. FERNALD, 894; W. B. CHAPMAN, 898; H. M. LATHAM, 899; H. H. SUPLEE, 900; E. N. TRUMP, 900; H. F. SMITH, 901; G. D. CONLEE, 901; Closure. 901
BOILER
Tests on a Venturi Meter for Boiler Feed, C. M. ALLEN. 589
Tan Bark as a Boiler Fuel, D. M. MYERS. 685
An Experience with Leaky Vertical Fire-Tube Boilers, F. W. DEAN 799
The Best Form of Longitudinal Joint for Boilers, F. W. DEAN. 823

Bucyrus Locomotive Pile Driver, The, WALTER FERRIS 905
Discussion
A. F. ROBINSON, 919; L. J. HOTCHKISS, 919; Closure 921

CAINE, W. P. *Governing Rolling Mill Engines* 783
CARPENTER, R. C. *High-Pressure Fire-Service Pumps of Manhattan Borough, New York* 437
Cast-Iron Fittings for Superheated Steam, I. N. HOLLIS 989
Manner of Failure; Possible Reasons for Failure; Difficulties at South Boston; Chemical Analyses and Tensile Tests; Fittings that Failed; Service Stresses.
Discussion, see Superheated Steam.
Cast-Iron Test Bars, A Report on, A. F. NAGLE 975
Cast-Iron Valves and Fittings for Superheated Steam, ARTHUR S. MANN .. 1003
Growth of Fittings; Instances of Failure; Experience with Steel Fittings; Analysis of Specimens; Practice Abroad.
Discussion, see Superheated Steam
CELEBRATION, HUDSON-FULTON 873
Concrete Beams, Stresses in Reinforced, G. LANZA and L. S. SMITH 511
CONVEYORS
A Unique Belt Conveyor, E. C. SOPER 151
Automatic Feeders for Handling Material in Bulk, C. K. BALDWIN .. 161
Cooling Towers for Steam and Gas Power Plants, J. R. BIBBINS 725
Present Field; Representative Installations; Special Phases of Cooling Tower Operation; Elements of Design; Present Types; Lath Mat Construction; The Evaporative Cooler; Standards of Design; Booster Type of Tower; Conclusions.
Discussion
GEO. J. FORAN, 758; W. D. ENNIS, 763; H. E. LONGWELL, 764; B. H. COFFEY, 767; C. G. DE LAVAL, 770; E. D. DREYFUS, 776; T. C. MCBRIDE, 778; Closure 779
Cylinders in Single-Acting Engines, Offsetting, T. M. PHETTEPLACE 223

DARLING, PHILIP G. *Safety Valve Capacity* 109
DEAN, F. W.
An Experience with Leaky Vertical Fire-Tube Boilers 799
The Best Form of Longitudinal Joint for Boilers 823
Design of Curved Machine Members under Eccentric Load, WALTER RAUTENSTRAUCH 559
Usual Analysis for Stresses; Andrews' and Pearson's Investigation; Values of Constant for Hooks; Goodman's Formula; Analysis of Punch Frame.
Discussion
G. LANZA, 566; C. R. GABRIEL, 568; G. R. HENDERSON, 569; WM. H. BURR, 570; A. L. CAMPBELL, 571; F. I. ELLIS, 572; E. J. LORING, 573; C. E. HOUGHTON, 579; H. GANSSLEN, 580; J. S. MYERS, 580; Closure 584
Dynamometer, A New Transmission, W. H. KENERSON 171

Effect of Superheated Steam on the Strength of Cast Iron, Gun Iron and Steel, The, EDWARD F. MILLER 998
Method of Testing Specimens; Results of Tests.
Discussion, see Superheated Steam.
Efficiency, Mechanical and Economic, Line-Shaft, HENRY HESS 923
Efficiency Tests of Steam-Turbine Nozzles, F. H. SIBLEY and T. S. KEMBLE.. 617
Theory of Nozzles; Methods Suggested; Piston Method; Flexible Tube Apparatus; Forms of Nozzle Tested; Flow Tests; Spring Calibrations; Search-Tube Tests; Reaction Tests; Calculation for Efficiency; Results and Conclusions.
Discussion
J. A. MOYER, 643; C. C. THOMAS, 645; S. L. KNEASS, 645; Closure 647
Electric Gas Meter, An, C. C. THOMAS 655
Characteristics of the Meter; Description of Meter for Gas or Air; Autographic Records; Operation of the Meter; Calibration of the Meter; Accuracy; Energy Required to Operate; Description of Meter for Steam; Theory and Method of Obtaining Standard Results.
Discussion
L. S. MARKS, 676; W. D. ENNIS, 678; E. D. DREYFUS, 679; A. R. DODGE, 679; Closure 679
Engineer in the U. S. Navy, The, GEO. W. MELVILLE 253
Engines, Governing Rolling Mill, W. P. CAINE 783
Engines, Single-Acting, Offsetting Cylinders in, T. M. PHETTEPLACE 223
Experience with Leaky Vertical Fire-Tube Boilers, An, F. W. DEAN 799
Description of Boilers; Trouble Experienced: Cause of Trouble; Remedy.
Discussion
R. P. BOLTON, 804, 813; WM. KENT, 809, 812; J. C. PARKER, 809; O. C. WOOLSON, 810; A. A. CARY, 810; L. P. BRECKENRIDGE, 812; A. M. GREENE, JR., 813; E. D. MEIER, 813; D. M. MYERS, 815; A. BEMENT, 815; Closure 817

Feeders, Automatic, for Handling Material in Bulk, C. K. BALDWIN 161
FERRIS, WALTER. *The Bucyrus Locomotive Pile Driver* 905
Fittings for Superheated Steam, Cast-Iron, I. N. HOLLIS 989
Discussion, see Superheated Steam.
Fittings for Superheated Steam, Cast-Iron Valves and, A. S. MANN 1003
Discussion, see Superheated Steam.
Fuel, Tan Bark as a Boiler, D. M. MYERS 685
Fire-Service Pumps of Manhattan Borough, New York, High Pressure, R. C. CARPENTER 437

GARLAND, C. M. *Testing Suction Gas Producers with a Koerting Ejector* .. 831
Gas Meter, An Electric, C. C. THOMAS 655
Gas Power, Marine Producer, C. L. STRAUB 185
Gas Power Plant, Operation of a Small Producer, C. W. OBERT 209
GAS PRODUCERS
Marine Producer Gas Power, C. L. STRAUB 185
Operation of a Small Producer Gas Power Plant, C. W. OBERT 209

Testing Suction Gas Producers with a Koerting Ejector C. M. GARLAND and A. P. KRATZ 831
Bituminous Gas Producers, J. R. BIBBINS 877
GEBHARDT, G. F. *The Pitot Tube as a Steam Meter* 601
Governing Rolling Mill Engines, W. P. CAINE 783
Two Methods of Rolling; Power Required; Details of Operations; Description of Governor and Indicator; Discussion of Autograph Records.
Discussion
H. C. ORD, 792; JAMES TRIBE, 794; E. W. YEARSLEY, 796; Closure 797

Handling Material in Bulk, Automatic Feeders for, C. KEMBLE BALDWIN. 161
HECK, R. C. H. *Some Properties of Steam* 345
HESS, HENRY. *Line-Shaft Efficiency, Mechanical and Economic* 923
High-Pressure Fire-Service Pumps of Manhattan Borough, New York, R. C. CARPENTER 437
Source of Water Supply; Water Required for Fire Purposes; Motive Power; Distribution System; Supply Piping; Pumping Stations; Equipment; Tests; Conclusions.
Discussion
GEO. F. SEVER, 462, 485; WM. M. WHITE, 464; GEO. L. FOWLER, 465; J. H. NORRIS, 470; J. R. BIBBINS, 471; J. J. BROWN, 473; GEO. A. ORROK, 474; FREDERICK RAY, 475; H. Y. HADEN, 476; T. J. GANNON, 476, 485; H. B. MACHEN, 478; R. H. RICE, 480; C. A. HAGUE, 481; A. C. PAULSMEIER, 485; W. B. GREGORY, 486; C. B. REARICK, 487; H. E. LONGWELL, 488; W. M. FLEMING, 488; H. S. BAKER, 493, 504; E. E. WALL, 501, 505; H. C HENLEY, 502, 505; EDW. FLAD, 504; H. WADE HIBBARD, 504; W. H. REEVES, 505; E. L. OHLE, 506; Closure 506
HOLLIS, I. N. *Cast-Iron Fittings for Superheated Steam* 989
HUDSON-FULTON CELEBRATION 373

IVENS, EDMUND M. *Tests upon Compressed-Air Pumping Systems of Oil Wells* 311

Joint for Boilers, The Best Form of Longitudinal, F. W. DEAN 823

KEMBLE, T. S. *Efficiency Tests of Steam-Turbine Nozzles* 617
KENERSON, WM. H. *A New Transmission Dynamometer* 171
KINGSBURY, ALBERT. *Polishing Metals for Examination with the Microscope* 181
Koerting Ejector, Testing Suction Gas Producers with a, C. M. GARLAND and A. P. KRATZ 831
KRATZ, A. P. *Testing Suction Gas Producers with a Koerting Ejector* 831

LANZA, GAETANO. *Stresses in Reinforced Concrete Beams* 511
Leather Belting, The Transmission of Power by, CARL G. BARTH 29
Line-Shaft Efficiency, Mechanical and Economic, HENRY HESS 923
Plan of Tests; Method of Testing; Results; Discussion of Results; Derivation of Constants; Comparison of Actual and Calculated Losses; Conclusions.

Discussion
T. F. SALTER, 938; C. A. GRAVES, 940; C. J. H. WOODBURY, 941; WALTER FERRIS, 942; F. J. MILLER, 942; A. C. JACKSON, 942; C. D. PARKER, 943; O. B. ZIMMERMAN, 943; W. F. PARISH, JR., 943; G. N. VAN DERHOEF, 944; Closure 945
Locomotive Pile Driver, The Bucyrus, WALTER FERRIS 905
Locomotives, Safety Valves for, FREDERIC M. WHYTE 105

Machine Members under Eccentric Load, Design of Curved, WALTER RAUTENSTRAUCH 559
MANN, A. S. *Cast-Iron Valves and Fittings for Superheated Steam* 1003
Marine Producer Gas Power, C. L. STRAUB 185
List of Marine Producer Installations; Two Types of Stationary Producers; Adaption to Marine Service; Description of Installation on Great Lake Steamer; Comparison of Steam and Gas Equipments.
Discussion
C. L. STRAUB, 200; GEO. DINKEL, 202; H. PENTON, 202; I. E. MOULTROP, 204; H. M. WILSON, 205; E. T. ADAMS, 205; Closure 205
MEETINGS OF THE SOCIETY
Annual Meeting 381, 386
Program; Committees; Account of Meeting; Opening Session; Lecture; Business Meeting; Professional Sessions; Gas Power Section; Excursions; Entertainment Features.
Boston, April 16 13
Boston, June 11 15
Boston, October 20 382
Boston, November 17 384
Boston, December 17 385
Conservation, Joint Meeting on 6
John Fritz Medal Award 9
Address of Dean W. F. M. Goss; Address of Prof. F. R. HUTTON; Address of ROBERT W. HUNT; Address of FRANK J. SPRAGUE.
New York, January 12 5
New York, February 23 5
New York, March 9 6
New York, October 12 381
New York, November 9 383
St. Louis, April 10 8
St. Louis, May 15 14
St. Louis, October 16 382
St. Louis, November 13 384
St. Louis, December 11 384
Washington Meeting 16
Program; Account of Meeting; Business Meeting; Professional Sessions; Lecture; Gas Power Section; Presentation of Portrait of Rear-Admiral Melville; Entertainment; Elections to Membership.

MELVILLE, GEO. W.
The Engineer in the U. S. Navy 253
Presentation of Portrait of 253
Metals, Polishing for Examination with the Microscope, ALBERT KINGSBURY 181
METER
An Electric Gas Meter, C. C. THOMAS 655
The Pitot Tube as a Steam Meter, G. F. GEBHARDT 601
Tests on a Venturi Meter for Boiler Feed, C. M. ALLEN 589
Microscope, Polishing Metals for Examination with the, ALBERT KINGSBURY 181
MILLER, E. F. *The Effect of Superheated Steam on the Strength of Cast-Iron, Gun Iron and Steel* 998
MYERS, D. M. *Tan Bark as a Boiler Fuel* 685

NAGLE, A. F.
Pump Valves and Valve Areas 953
A Report on Cast-Iron Test Bars 977
NECROLOGY
ALLEN, WALTER MORRISON 1039
ASHWORTH, A. KENNEDY 1039
BLAIR, ARCHIBALD W 1040
BOYER, FRANCIS H 1040
BRIGGS, THOMAS HALLETT 1041
CALDWELL, ANDREW JAMES 1041
CHICKERING, KENTON 1042
CORBIN, GEORGE W 1043
EBERHARDT, ELMER G 1043
GILDERSLEEVE, DAVID HAMILTON 1044
GRAY, THOMAS 1044
GROVER, LEWIS CLESSON 1045
HILDRETH, CHARLES LEWIS 1046
HILL, WARREN E 1046
HOE, ROBERT 1047
HUYETTE, WILLIAM S 1047
JENNINGS, EDWARD L 1048
JONES, EDWARD H 1048
LANDSING, JANG 1049
LINCOLN, ROBERT B 1049
MILLER, ALEXANDER 1050
PIERCE, ARTHUR W. K 1050
RAND, JASPER R 1051
REED, WILLIAM THOMAS 1051
REYNOLDS, EDWIN 1052
SOULE, RICHARD HERMAN 1053
WELLBAUM, ARVY ELROY 1054
WEST, GEORGE W 1055
WOLFF, ALFRED R 1055

New Departure in Flexible Staybolts, A, H. V. WILLE 359
Failure of Former Types; Formulae for Flexure; Description of New Bolt; Comparative Tests; Calculation of Expansion in Fire-Box.
Discussion
WM. ELMER, 365; W. E. HALL, 365; ALFRED LOVELL, 368; F. J. COLE, 369; Closure 370
New Transmission Dynamometer, A, WM. H. KENERSON 171
Description; Operation; Important Features.
Discussion
A. F. MASURY 178
New York, High-Pressure Fire-Service Pumps of Manhattan Borough, R. C. CARPENTER 437
Nozzles, Efficiency Tests of Steam-Turbine, F. H. SIBLEY and T. S. KEMBLE 617

OBERT, C. W. *Operation of a Small Producer Gas Power Plant* 209
Offsetting Cylinders in Single-Acting Engines, THURSTON M. PHETTEPLACE 223
Length of Stroke; Side Pressure of Piston on Cylinder Walls; Inertia Forces; Vibration and Balance; Conclusions.
Discussion
W. H. HERSCHEL, 248; J. H. NORRIS, 252; Closure 252
Oil Wells, Tests Upon Compressed-Air Pumping Systems of, E. M. IVENS 311
Operation of a Small Producer Gas Power Plant, C. W. OBERT 209
Description of Plant; Operating Results.
Discussion
J. A. HOLMES, 219; J. H. NORRIS, 220; W. A. BOLE 220
ORROK, GEORGE A. *Small Steam Turbines* 263

PEABODY, C. H. *The Specific Volume of Saturated Steam* 333
PHETTEPLACE, THURSTON M. *Offsetting Cylinders in Single-Acting Engines* 223
Pile Driver, The Bucyrus Locomotive, WALTER FERRIS 905
Pitot Tube as a Steam Meter, The, G. F. GEBHARDT 601
Types of Steam Meters; Various Uses of Pitot Tube; Description of Author's Design; Equations for Velocity of Flow; Operating Methods; Results Obtained.
Discussion
W. B. GREGORY, 614; WALTER FERRIS, 614; A. R. DODGE, 615; Closure 616
Polishing Metals for Examination with the Microscope, ALBERT KINGSBURY 181
Desirable Features; Preliminary Trials; Method Adopted; Treatment of Samples.
PORTRAIT OF GEO. W. MELVILLE, PRESENTATION OF
The Engineer in the U. S. Navy, GEO. W. MELVILLE 253
Presentation of Portrait, W. M. MCFARLAND 258
Acceptance of Portrait, C. D. WALCOTT 261
POWER PLANTS
Cooling Towers for Steam and Gas-Power Plants, J. R. BIBBINS 725
Operation of a Small Producer Gas-Power Plant, C. W. OBERT 209

Profession of Engineering, The, Presidential Address, JESSE M. SMITH.. 429
Pumping Systems of Oil Wells, Compressed Air, Tests upon, E. M. IVENS 311
Pumps of Manhattan Borough, New York, High-Pressure Fire-Service, R. C. CARPENTER..... 437
Pump Valves and Valve Areas, A. F. NAGLE..... 953
Need for Change in Specifications; Losses in a Pump; Variations in Spring Tension; Comparison of Valve Areas and Springs; Recommendations.
Discussion
C. A. HAGUE, 962; I. H. REYNOLDS, 964; F. W. SALMON, 965; WM. KENT, 967; R. C. CARPENTER, 967; E. H. FOSTER, 968; Closure..... 968

RAUTENSTRAUCH, WALTER, *Design of Curved Machine Members under Eccentric Load*..... 559
REPORTS
Annual Reports of Council and Committees..... 407
Finance Committee..... 413
House Committee..... 418
Library Committee..... 419
Meetings Committee..... 421
Membership Committee..... 423
Publication Committee..... 424
Research Committee..... 426
Report on Cast-Iron Test Bars, A, A. F. NAGLE..... 977
Unreliability of Test-Bars; Method of Casting; Results of Tests; Comparison by Means of Cast-Iron Beam Formula; Relation of Transverse to Tensile Strength.
Discussion
W. B. GREGORY, 984; A. A. CARY, 987; T. M. PHETTEPLACE, 987; Closure..... 988
Rolling Mill Engines, Governing, W. P. CAINE..... 783

Safety Valves for Locomotives, FREDERIC M. WHYTE..... 105
Methods of Determining Size of Valve; Essentials of a Safety Valve; Relation of Valve Capacity to Steam Generating Capacity.
Safety Valve Capacity, PHILIP G. DARLING..... 109
Factors Determining the Area; Description of Testing Apparatus; Results of Tests; Massachusetts Rule; Philadelphia Rule; Tests to Determine Coefficient of Flow; Constants for Various Types of Boilers.
Discussion on Safety Valves
L. D. LOVEKIN, 129, 139; A. C. ASHTON, 130, 146; A. B. CARHART, 131, 143; E. A. MAY, 132; F. J. COLE, 133; C. E. LUCKE, 135; J. M. SMITH, 136; G. P. ROBINSON, 136; H. C. MCCARTY, 137; M. W. SEWALL, 137, 146; A. A. CARY, 138; F. L. DU BOSQUE, 138; N. B. PAYNE, 140; H. O. POND, 142; F. L. PRYOR, 142; E. F. MILLER, 144; G. H. MUSGRAVE, 145; A. F. NAGLE, 146; J. J. AULL, 147; P. G. DARLING..... 148
SIBLEY, F. H. *Efficiency Tests of Steam-Turbine Nozzles*..... 617

Small Steam Turbines, GEO. A. ORROK 263
Horsepower Sold; General Characteristics; De Laval Turbine; Terry; Stuntevant; Bliss; Dake; Curtis; Kerr; Description of Details; Operation; New Turbines; Steam Economy; Field for Small Turbines.
Discussion
C. B. REARICK, 287, 297; W. D. FORBES, 288; R. H. RICE; 288, 303, 307; R. C. CARPENTER, 291; H. Y. HADEN, 292; F. D. HERBERT, 293; W. E. SNYDER, 294; F. H. BALL, 296; C. A. HOWARD, 296; W. J. A. LONDON, 296, 306; F. B. DOWST, 298; C. B. EDWARDS, 300; V. F. HOLMES, 300; J. S. SCHUMAKER, 302; C. A. READ, 302; I. N. HOLLIS, 302; E. F. MILLER, 303; J. T. HAWKINS, 303; C. H. MANNING, 304; C. P. Crissey, 305; J. H. LIBBEY, 307; Closure 309
SMITH, JESSE M.
Biography 3
Presidential Address, *The Profession of Engineering* 429
SMITH, L. S. *Stresses in Reinforced Concrete Beams* 511
Some Properties of Steam, R. C. H. HECK 345
Pressure-Temperature Relation; Specific Heat of Water; Different Heat Units.
Discussion
SANFORD A. MOSS, 355; G. A. GOODENOUGH, 355; Closure 357
SOPER, E. C. *A Unique Belt Conveyor* 151
Specific Volume of Saturated Steam, The, C. H. PEABODY 333
Thermodynamic Equation; Total Heat of Steam; Heat of the Liquid; Comparison of Barnes', Dieterici's and Regnault's Results; Holborn and Henning's Pressures of Saturated Steam; Comparison of Experimental and Computed Values.
Discussion
W. D. ENNIS, 342; Closure 343
Staybolts, A New Departure in Flexible, H. V. WILLE 359
STEAM
The Pitot Tube as a Steam Meter, G. F. GEBHARDT 601
The Specific Volume of Saturated Steam, C. H. PEABODY 333
Some Properties of Steam, R. C. H. HECK 345
STEAM TURBINES
Efficiency Tests of Steam-Turbine Nozzles, F. H. SIBLEY and T. S. KEMBLE 617
Small Steam Turbines, GEO. A. ORROK 263
STRAUB, C. L. *Marine Producer Gas Power* 185
Stresses in Reinforced Concrete Beams, GAETANO LANZA and L. S. SMITH 511
Previous Observations; Theories Employed in Making Calculations; Notations and Analyses of Formulae; Details of Beams Tested; Comparison of Results; Conclusions.
Discussion
CHAS. T. MAIN, 522; S. E. THOMPSON, 522; F. S. HINDS, 525; C. M. SPOFFORD, 526; J. R. WORCESTER, 527; GEO. F. SWAIN, 530; H. F. BRYANT, 531; H. E. SAWTELL, 532; E. P. GOODRICH, 536; WALTER RAUTENSTRAUCH, 539; B. H. DAVIS, 540; C. B. GRADY, 542; FRANK B. GILBRETH, 543; W. H. BURR, 543; J. C. OSTRUP, 545; E. L. HEIDENREICH, 549; C. E. HOUGHTON, 549; W. W. CHRISTIE, 550; Closure 551

Superheated Steam on Cast Iron and Steel, The Effect of, I. N. Hollis, E. F. Miller, A. S. Mann 989

Discussion

B. R. T. Collins, 1009; Geo. A. Orrok, 1009; W. K. Mitchell, 1012; John Primrose, 1019; H. S. Brown, 1022; E. H. Foster, 1022; L. B. Nutting, 1023; A. Lumsden, 1024; J. C. Parker, 1025; A.A. Cary, 1026; W. E. Snyder, 1026; J. S. Schumaker, 1030; D. S. Jacobus, 1030; H. F. Rugan, 1031; Closure 103

Tan Bark as a Boiler Fuel, D. M. Myers 685
Ten Physical Conditions; Calorimeter Tests; Effects of Leaching; Moisture; Tan Bark Compared to Coal; Chemical Analysis; Evaporative Tests; Effect of Pressing and Burning With Coal; Tan Presses; Effect of Small Combustion Space; Draft and Grate Surface; Summary.

Discussion

A. A. Cary, 712; Wm. Kent, 716; F. R. Hutton, 717; Closure 720

Test Bars, A Report on Cast-Iron, A. F. Nagle 977

Testing Suction Gas Producers with a Koerting Ejector, C. M. Garland and A. P. Kratz 831
Description of Apparatus; Method of Starting Test; Taking Temperatures; Sampling Gas; Measuring Steam and Gas; Method of Calculating Results; Results of Trials; Items Used in Computations; Guide Sheet of Formulae.

Discussion

R. H. Fernald, 862, 867; G. M. S. Tait, 866; H. H. Suplee, 866; L. B. Lent, 866; H. F. Smith, 867; W. B. Chapman, 867; E. N. Trump, 868; Closure 868

Tests upon Compressed-Air Pumping Systems of Oil Wells, Edmund M. Ivens 311
Terms; Description of Systems; Observations; Summary of Results; Conclusions.

Discussion

F. A. Halsey, 330; S. A. Moss, 330; J. G. Callan, 331; Closure 332

Tests on a Venturi Meter for Boiler Feed, C. M. Allen 589
Requirements of a Hot-Water Meter; Description of Apparatus; Determination of Coefficients; Difficulties Encountered; Results.

Discussion

F. N. Connet, 594, 597; Clemens Herschel, 596; S. A. Moss, 596; Geo. A. Orrok, 597; Closure 598

Thomas, C. C. *An Electric Gas Meter* 655

Transmission Dynamometer, A New, Wm. H. Kenerson 171

Transmission of Power by Leather Belting, The, CARL G. BARTH 29
Relation of Pulling Power to Tensions at All Speeds; Problems and Solutions; Slide Rule for Solution of Belt Problems; Means of Securing and Maintaining Definite Tensions; Elastic Properties of Belting; Law of Variation in Two Tensions of Long Horizontal Belt; Testing Formula by Lewis' Experiments; Belt Creep; Effect of Centrifugal Force; Formula for Pulling Power of Vertical Belts; Pulling Power in Terms of Tight and Slack Tension.
Discussion
H. R. TOWNE, 64; W. LEWIS, 66; W. D. HAMERSTADT, 67; F. W. TAYLOR, 71, 80; Chas. ROBBINS, 74; G. N. VAN DERHOEF, 75; W. C. ALLEN, 77; D. V. MERRICK, 81; F. A. WALDRON, 83; A. A. CARY, 84; A. F. NAGLE, 85; W. W. BIRD, 88; C. H. BENJAMIN, 89; H. K. HATHAWAY, 91; W. S. ALDRICH, 96; Closure 99
Turbines, Small Steam, GEO. A. ORROK 263

Unique Belt Conveyor, A, E. C. SOPER 151
Description; Operation; Calculation of Work Done; Power Tests; Initial and Operating Costs.
Discussion
T. A. BENNETT, 158; H. EMERSON, 159; F. J. MILLER, 159; Closure 160

VALVES
Safety Valves for Locomotives, F. M. WHYTE 105
Safety Valve Capacity, P. G. DARLING 109
Pump Valves and Valve Areas, A. F. NAGLE 953
Venturi Meter for Boiler Feed, Tests on a, C. M. ALLEN 589

WHYTE, FREDERIC M. *Safety Valves for Locomotives* 105
WILLE, H. V. *A New Departure in Flexible Staybolts* 359
